

Schématisation Biologie Végétale ①

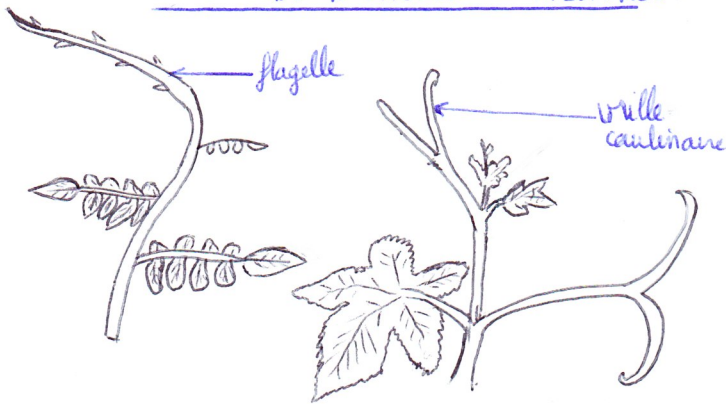

18.11.14.

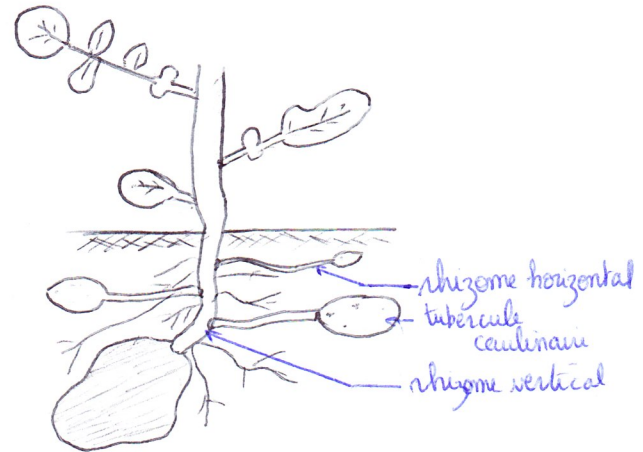

TYPES DE BOURGEONS AXILLAIRES

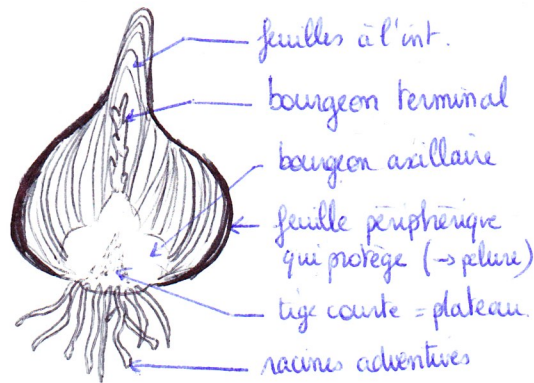

TIGE RAMPANTE - LE STOLON

TIGES GRIMPANTES

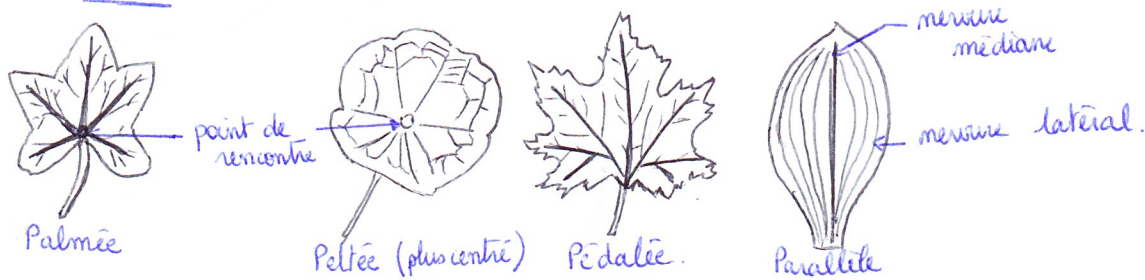

TUBERCULE CAULINAIRE

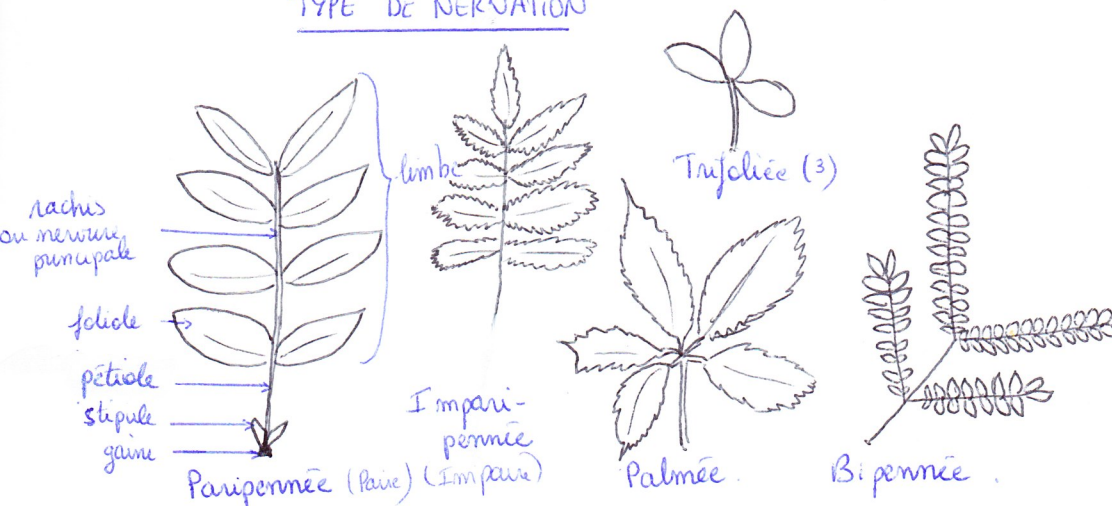

FORME DE L'BASE (Newad pennée)

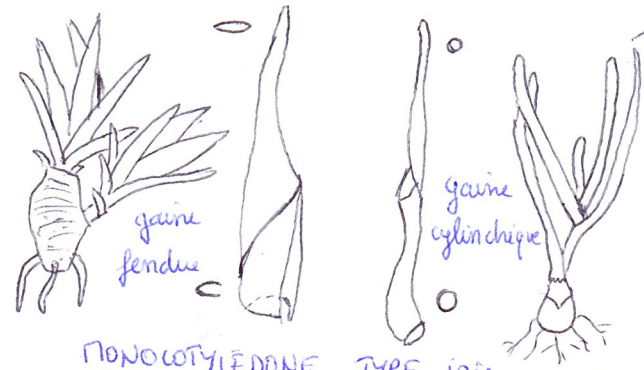

BULBE

TYPE DE NERVATION

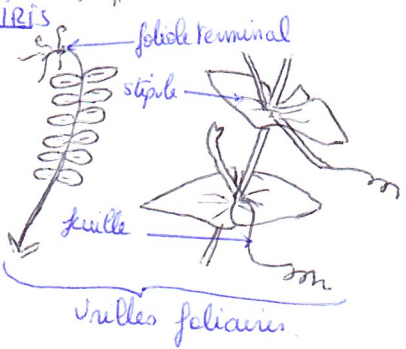

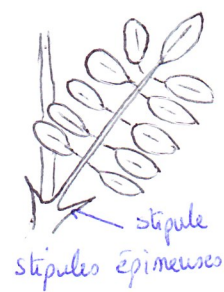

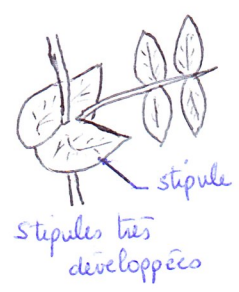

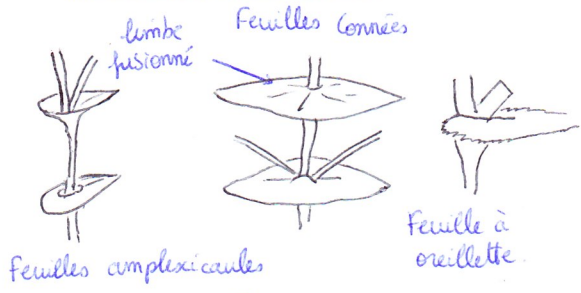

TYPES DE FEUILLE COMPOSÉE

FEUILLE MONOCOTYLÉDONGE TYPE PAÏS

MONOCOTYLÉDONGE TYPE IRIS

Feuilles complexicaules

Feuille à oreillette

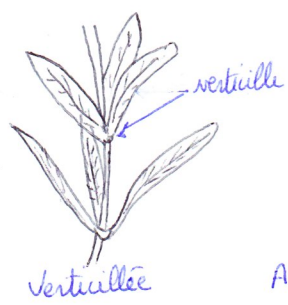

stipules très développées

stipules épiméeses

Feuilles foliaires

Feuilles sessiles (sans pétiole)

VARIATIONS FOLIAIRES

Opposée décussée

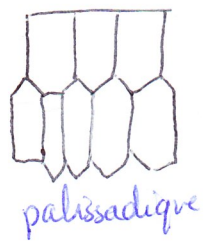

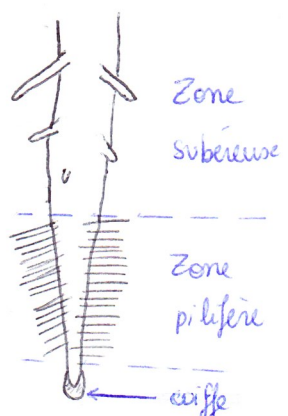

verticillée

Alternée

Alternée quinconce

PHYLLOTAXIE

25.11.16

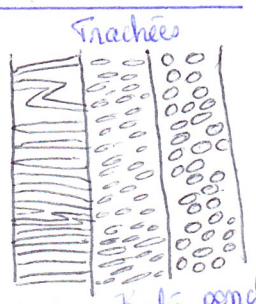

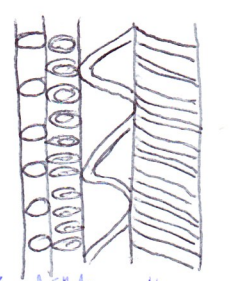

À méats

lacuneux

polyédrique

palissadique

TYPES DE PARENCHYME

Trachéides Annélées

Trachéides Spiralées

TYPES DE TRACHÉES / TRACHÉIDES
